How We Begin: A Seller’s Guide

Grissom Asset Management Group · Based in Phoenix, Arizona · Buying across the U.S. · Effective October 27, 2026

Selling a property doesn’t have to begin with repairs, preparation, and putting your home on the open market. Here is how a conversation with us works.

1. Tell us about your property

Complete our property inquiry form with the basic details: the address (anywhere in the United States), the condition of the property, and your timeline.

2. We review the information

We’ll follow up to learn more about the property and your objectives.

3. We discuss whether there’s a fit

If the property meets our buying criteria, we’ll discuss a potential cash offer and possible next steps. You decide how to proceed.

What helps us review faster

- Property address and type (single-family, condo, small multifamily, land)
- Bedrooms, bathrooms, and approximate square footage
- Known repairs or updates needed
- Occupancy: vacant, owner-occupied, or resident in place
- Your ideal timeline

Our commitments

- Clear communication at every step
- No pressure. You decide whether a direct sale is right for you.
- Honest answers about whether the property fits our criteria
